POWERFUL VIDEO WALL MANAGEMENT SOLUTION FOR CONTROL ROOMS

MultiVis Control is a lightweight and multiplatform solution for professional video-walls, integrating all visual resources into a single canvas and allowing smooth content handling to support decision-making and collaboration between local and remote peers.

As a multiplatform software solution, Multivis Control runs on regular web browsers and requires standard IT infrastructure.

Multivis Control operates with high-end security protocols and 2048-bit encryption on every communication.

Simple and intuitive graphic interface, allowing drag & drop operations, shortcuts, and snap to grid, providing an agile experience to the user.
